Why buy from a local distributor?

We offer unparalleled service and warranty taking all the guesswork out of your decisions. E&E is here to give you the peace of mind that you won't find buying online. Our team's experience makes purchasing items for your new home or renovation less daunting and we will provide guidance which will save you time and money. We are a local, family-owned business that will ensure that you receive the products and brands that you love, will meet your lifestyle expectations and suit your individual needs and budget. We are your neighbors and take pride in helping you.

Why not buy from chain stores?

Buyer Beware—you get what you pay for. In an effort to bring costs down, some manufacturers produce inferior finishes and internal parts for chain store distribution. Those products are not built to last and may, eventually, cause damage and additional plumbing costs and perhaps even hiring a contractor. When the shower breaks with soap in your hair and water is spewing everywhere, that initial savings just turned into a nightmare!

When you experience a problem, buying local matters! E&E goes beyond the big box employee who really doesn't have the knowledge to provide sound advice.

It all boils down to...

Chain Stores offer attractive discounts with savings that could cost you later. Your time and money is better spent using a local, knowledgeable and friendly professional. E&E will give you the personal attention you deserve. Let us help you with your project—big or small. We are professional. We are reliable. We provide the service that you won't find anywhere else. We've been in your neighborhood for 80 years. You can count on us.
